

THE EDIBLE COLLECTION® 64s

NOW AVAILABLE IN VEGETABLE LINERS

Pleasant View continues to offer an exclusive collection of edible herbs that are easy to grow and feature the very best and most popular varieties. This year we have added Vegetable Liners to our Edible Collection®. Veggies are among the fastest growing markets as urban gardening and backyard farming becomes more and more popular. Just like our herb liners, the vegetable collection features the same upscale retail packaging that gives growers added value to pass along to retailers for increased sales to gardeners.

- 40 varieties selected based on retail demand and garden performance
- Best genetics, locally grown, and free of chemicals
- A wide selection of tomatoes including old stand-bys, new varieties, and heirlooms
- Popular pepper varieties from fiery hot to sweet and mild
- A growing regional brand that is supported by branded, environmentally sustained coir fiber pots for easy planting and retail recognition
