

FASTER FINISH TIME & LOWER INPUT COST

Enhanced™ 84s are an economical solution for turning out more product from your greenhouse and increasing your profits. Although they are not the larger, spaced plugs in Enhanced™ 72 liners, these liners receive the same proprietary treatment, resulting in shorter crop times and more consistent flowering so they will look their best when ready for shipment.

Royal Velvet Petunia Grown with Enhanced™ 84 Liners 2 Weeks After Planting

Royal Velvet Petunia Grown with Enhanced™ 84 Liners 4-5 Weeks After Planting

- Already lit, PGR'd, and pinched to save you time, labor and chemical costs
- Typically only 4-5 week finish time before retail ready
- Allows for quick turns and increased production for higher profits
- More consistent finishing than standard liners
- Results in compact, better branched plants for longer shelf life and faster sales at retail
- Ideal for small pot production in 4.25 Grande™ or 4.5 Classic™
- Efficient, bench run shipping
